

This DVD contains a copy of the Profit Center Financial Planner that is to be used in Microsoft Excel or similar program (Numbers, Open Office). This will help you figure out your personal salary budget, overhead budget, cost of sales, break even analysis, and forecast income. It's super-geeky but the foundation for business planning and making sure your "numbers" are working for you, not against you.

All materials copyright © BananasEDU and liana PHOTOGRAPHY INC.
It is illegal and not cool to distribute, share, or resell this.

The DEMO DVD contains just that - a demonstration of how to use the Profit Center Financial Planner. Watch it.

Also, a few notes about this spreadsheet. I recommend saving multiple versions. Do a "worst case" and "ideal" forecast. PLEASE read the directions on the first page and ONLY fill out the light yellow. Otherwise you'll mess up the calculations and it's a nightmare to fix. If you want to make changes and it's protected, go to unprotect the sheet and type in the password: rule. Happy calculating!

Cheers,
Liana

Therefore everyone who hears these words of mine and puts them into practice is like a wise man who built his house on the rock. The rain came down, the streams rose, and the winds blew and beat against that house; yet it did not fall, because it had its foundation on the rock. But everyone who hears these words of mine and does not put them into practice is like a foolish man who built his house on sand. The rain came down, the streams rose, and the winds blew and beat against that house, and it fell with a great crash.
- Matthew 7:24-27
